

ECOLLABORATION
RESILIENT LANDSCAPES - RESILIENT COMMUNITIES

Environment Policy

ECollaboration Ltd aspires to minimise its impact on our environment and maximise the effective use of resources. We strive to achieve this by increasing communication and awareness of our efforts in accordance with this policy and fostering responsible environmental behaviour amongst staff, volunteers, and users at all levels.

ECollaboration is committed not only to complying with applicable law in all of its operations but to absolutely minimising its risks and impacts through the development of robust and documented systems to implement, measure, monitor, and disseminate excellent environmental performance both within its operations and to the broader community based on the International Standard AS/NZS ISO 14001:2015.

ECollaboration commits itself to minimising its impact on our environment through conserving natural resources by reducing consumption, reusing and recycling by:

- ✓ Providing a safe and healthful workplace
- ✓ Creating an environmentally aware culture where responsibility is assigned and understood
- ✓ Being an environmentally responsible neighbour in our community
- ✓ Participating in efforts to improve environmental protection and understanding
- ✓ Using in our own operations processes that do not adversely affect the environment
- ✓ Using our own professional expertise where possible to assist in the development of solutions to environmental problems
- ✓ Striving to improve our environmental performance continually
- ✓ Conducting rigorous audits, evaluations, and self-assessments of the implementation of this policy
- ✓ Working with suppliers who promote sound environmental practices
- ✓ Enhancing awareness among our employees, volunteers, and users - education and motivating them to act in an environmentally responsible manner.

These objectives are fundamental to our successful future and all employees are responsible for working in accordance with the documented Environment Management System and to review and identify ways to continually improve the system.

By these processes, we will continue to challenge and improve the quality of our services to meet the ongoing demands of our customers.

Our commitment to Environmental Management is fundamental to the concept of continuous improvement.

Environmental Management is the responsibility of all our employees, suppliers and contractors.
